# Digitalisation and Company Law

**Bibliothèque Solvay, Parc Leopold, Rue Belliard 137, 1040 Bruxelles**

13.00 – 17.00, followed by a reception

On the occasion of the new Commission proposal on Upgrading Digital Company Law, the Council of the Notariats of the European Union (CNUE) organises the event “Digitalisation and Company Law”. Only four years after the Digital Tools Directive, the new proposed Directive on Upgrading Digital Company Law will promote the further use of digital tools and the cross-border activities of European businesses in the internal market. Together with Union legal acts such as the eIDAS Regulation and the Regulation on the digitalisation of judicial cross-border cooperation, it is part of the European Commission’s 2030 Digital Compass for the European Union’s twin transition to a sustainable and digital economy. The conference will serve as a forum to discuss the new Upgrading Digital Company Law Directive. Experts from politics, business and legal practice will exchange on the opportunities and challenges of digitalisation in company law and, more broadly, in the European Union’s entire justice sector.
